Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1, claim 1-7 and 11-13 are directed to an integrated circuit having means for providing access to a processor device, said integrated circuit being arranged to set up a direct memory access (DMA) for transferring data via said access means, to trigger a DMA transfer of said data, to add said DMA transfer to said transaction log, to provide said transaction log to said processor device when said transaction log has reached a predetermined depth limit, and to issue an information indicating the availability of said transaction log.

Species 2, claims 8-10 are directed to a processor device having a memory which can be accessed by a connected circuitry (20), said processor device (10) being arranged to validate data, transferred to said memory (16) by a direct memory access, based on a transaction log provided to said processor device.

Species 3, claims 13-18 are directed to a) wherein said circuitry is arranged to set up a direct memory access (DMA) for transferring data, to trigger a DMA transfer of said data to said processor device (10), to add said DMA transfer to a transaction log, to provide said transaction log to said processor device (10)when said transaction log has reached a predetermined depth limit, and to inform said processor device (10) of the availability of said transaction log; and b)

wherein said processor device (10) is arranged to validate said transferred data based on said provided transaction log.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP 5809.02(a).

Should applicant traverse on the ground that the species are not patentability distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
